Alert Disaster Restoration · Official ADR Proposal

Synthetic browser property

10-07-2026

Estimator: Matthew Myers · CSLB #950983

Customer estimate range: $1,208.00–$1,221.90

Itemized charges at base rates: $1,208.00

Findings

Due to property age (1960), California State Law requires third-party lead and asbestos testing prior to destructive demolition.

Proposed scope

Room 1: category 1 finished/drywall/trim demolition

(this does not include the pretest for lead/asbestos)

RE: Remediation scope for Synthetic browser property

Alert Disaster Restoration • Bakersfield, CA • CSLB #950983

This scope describes proposed work; completion has not been recorded.

The scope is prepared with reference to IICRC S500/S520 restoration practices. Project-specific conditions and evidence are recorded below; no unsupported section citation or completion claim is made.

Due to property age (1960), California State Law requires third-party lead and asbestos testing prior to destructive demolition.

Scope:
Room 1: category 1 finished/drywall/trim demolition

(this does not include the pretest for lead/asbestos)

Itemized charges at base rates: $1,208.00. Customer estimate range: $1,208.00 to $1,221.90. The range applies the estimating sheet labor/material allowance to the priced scope.

Sincerely,
Matthew Myers
Alert Disaster Restoration
